

Commitment to Achieving Net Zero Emissions

Archwood Limited, as part of the United Nations Race to Zero Campaign is committed to achieving Net Zero emissions by 2050 and halving emissions across all Scopes by 2030. Archwood Limited will disclose progress on a yearly basis and publish in an annual Sustainability Report.

Scope

All Archwood Limited’s operational sites are included within the Net Zero commitment to measure and reduce the direct emissions impact of all operational sites and the indirect emissions impact along the value chain. This will include the emissions impact of both upstream and downstream transportation, from timber source, to supplier, to Archwood Limited and onto the customer.

Emission Scopes and included categories as follows:

Emissions Scopes	Included Categories
Scope 1	
Scope 2	
Scope 3	1. Purchased goods and services
	3. Fuel and energy related activities
	4. Upstream transportation and distribution
	5. Waste
	6. Business travel
	9. Downstream transportation and distribution

Note – Scope 3 carbon footprint calculation to represent 85% of total spend.

Independent Measurement & Verification

Archwood Limited is committed to having the organisational carbon footprint independently measured and verified. Independent measurement and verification will be carried out by Planet Mark with ongoing compliance with The Planet Mark sustainability certification scheme.

Emissions will be reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard, using the appropriate Government emission conversion factors for greenhouse gas company reporting.

Engagement & Public Communications

In addition to our Net Zero pledge, Archwood Limited is committed to ensuring that all public communications and any engagement or lobbying that we participate in directly or through trade associations will be aligned with our Net Zero ambitions at a local, sectoral or national level.
